# Environmentally safe, not just environmentally friendly – that's the idea!

The protection of the environment, the consumer and the employee all hold a very high degree of importance in the STAEDTLER corporate philosophy. Everything we do should be safe for our environment, and as such, safe for human beings as well. This enduring spirit of environmental consciousness at STAEDTLER is a contribution to protecting the quality of life for present and future generations.

## STAEDTLER acts ecologically AND efficiently at the same time!

We have adopted the ambitious standard of producing products that not only are especially environmentally compatible, but which impress and convince through their longevity and high user benefit. We call this perfect interaction between ecology and efficiency : **efficient for ecology by STAEDTLER.**

### STAEDTLER acts ecologically

The products we have developed often fulfil many ecological criteria from the very beginning. We achieve this through self-imposed eco-controlling programme. Environmental compatibility is already incorporated in the development phase of new products and manufacturing processes: Raw materials and energy are used as sparingly as possible and close attention is paid to recycling possibilities and reducing the amount of waste and refuse.

### STAEDTLER acts efficiently

Through high environmental consciousness, savings take place at all levels. The goal is a reduction of $CO_2$ emissions in all processes. In addition, we pay close attention in the development phase to the high user efficiency and longevity of our products.

### Environmental and quality management – for long-term success!

Quality management, quality assurance and environmental protection are among our priority company tasks.

In order to ensure a continuous improvement in our environmental and quality performance, our processes are regularly subjected to internal and external audits.

This forms the basis for an efficient identification and utilisation of potential for optimisation.

In November 2011, all German production plants and the head office of the STAEDTLER Group in Nuremberg were audited by DQS (German Association for the Certification of Management Systems) and successfully certified according to ISO 9001 and ISO 14001. It is at these certified production plants that more than 80 % of all STAEDTLER products manufactured worldwide are produced. In the medium term, all international production and sales bases will be audited and certified.

**Certified – for the sake of the environment!**

We set particularly high standards when it comes the sourcing and processing of wood, one of the most important raw materials as far as the manufacture of wood-cased STAEDTLER pencils is concerned.

As a result, STAEDTLER Mars GmbH & Co. KG has been granted Chain of Custody (CoC) certification in accordance with valid FSC™ (Forest Stewardship Council™) and PEFC standards for the production and trade of wood-cased pencils.

All certified wood-cased STAEDTLER pencils are ecologically efficient products – true to our environmental philosophy. The "efficient for ecology" logo and "certified wood pencils" wording on product packaging clearly emphasise this. The certification underlines STAEDTLER's commitment to the environment and its responsible use of indispensable wood raw materials and composites. In the endeavour to secure sustainable quality when it comes to living and environmental conditions, all manufacturing processes at STAEDTLER are subject to the company's "efficient for ecology" philosophy – not only today but in the future as well.

## Ecological added value from the very beginning!

STAEDTLER wishes to ensure that our products and their production burden the environment as little as possible. For this reason, all processes are subject to the motto "efficient for ecology". The following areas are continually examined with regard to their ecological efficiency.

- Waste management
- Waste prevention
- Internal and external recycling concepts
- Own wastewater treatment
- Energy management
  - Recycling of wood chips
  - Heat recovery
  - Recuperative firing (energy savings in lead kiln)
  - Use of natural gas instead of fuel oil
  - Noise reduction
- Own solvent recovery
- Emergency management
- Recycling within the manufacturing processes, such as for plastics and lead compound material
- Continual process optimisation
- Value stream mapping
- Research and development as well as quality management

efficient for ecology

# Products for a longer service life

We develop clever production solutions that are not only environmentally friendlier, but above all are more efficient for the user as well. As such, we place high importance on the longevity of our products – because something that lasts and lasts doesn't have to be replaced for a long time to come.

## Examples of high user benefit and longevity:

**DRY SAFE:**
**the end of dried-up pens and markers!**

When creativity is flowing along smoothly, it sometimes happens that pens or markers don't get recapped right away. STAEDTLER's innovative DRY SAFE ink technology makes it possible for our pens to lie uncapped for days at a time, without drying up. As such, the service life is increased considerably.

**The STAEDTLER box:**
**the award-winning original.**

Simply open, stand it up and start writing! The unique STAEDTLER box is so practical and just as ecologically efficient: Without the need for additional external packaging, it serves as a practical storage box and clever pencil holder at the same time.

**A·B·S: uninterrupted creativity.**

Especially with children, coloured pencils have to be able to stand up to a lot of punishment: The unique Anti-Break-System (for short A·B·S) increases their service life. Because the richly coloured, high-quality lead core in our coloured pencils with A·B·S is surrounded by a unique white protective coating which reinforces the lead core and increases break-resistance.

efficient for ecology

# Efficient products and manufacturing processes

Quality and high ecological efficiency are reflected in many of our products. Here, the use of harmless and environmentally-safe materials is tested as diligently as the special manufacturing process.

Some of the outstanding examples that have earned the "efficient for ecology" title are:

### 1. Wood-cased pencils "Made in Germany"

- Our own high-coverage special lacquers make thin lacquering coats possible and thus are particularly easy on existing resources
- Fast-drying lacquer means no additional energy required for drying
- Highly-precise woodworking technology makes best possible use of the raw material wood
- The use of special adhesives ensures fast drying and short process times

### 2. Pencils

- Use of natural instead of synthethic graphites
- The high stability and strength of the leads enable longer writing with fewer interruptions
- Optimised formulations for minimal oven temperatures generate lower energy needs
- The heat from the oven process is used for heating of the building

### 3. WOPEX material

- Excellent break resistance
- Ergonomic soft surface
- Unique writing experience
- Wood from PEFC-certified German forests

### 4. Coloured pencils

- A·B·S – special lead coating increases break-resistance
- Water-based manufacturing procedure avoids waste products that burden the environment
- Exhaust from manufacturing is efficiently cleaned

### 5. Mechanical pencil leads

- Made more than 90 % from natural materials, with high graphite content
- Unique manufacturing process completely without PVC or softeners
- High mineral elasticity ensures high break-resistance

### 6. Lumocolor

- Special DRY SAFE technology prevents the pen from drying up
- The STAEDTLER refill station enables clean and environmentally-friendly refilling
- Materials from injection-moulding process are recycled and reused

# STAEDTLER – your inspiration since 1835

Whether a brilliant idea, fleeting thought or quickly-jotted note – STAEDTLER offers intelligent writing and colouring instruments and creative products for any and every need or situation.
It's therefore no wonder that we can proudly claim to give form to the ideas of people the whole world over.
We see our products as helpful tools for promoting the flow of creative thought, coupled with the exceptional comfort and innovative product features that are sure to make STAEDTLER your favourite product.

## We guarantee:

There is a brilliant idea behind every STAEDTLER product. Since the company's founding by Johann Sebastian Staedtler in 1835, STAEDTLER has made use of the long tradition of the Nuremberg-based, pencil-making family. As early as 1662, Friedrich Staedtler, an ancestor of the company founder, was already mentioned in the official annals of the city of Nuremberg as a "Bleistiftmacher", or lead-pencil maker. Through our centuries-long experience and special advances in research and development, we have developed innovative products with the highest brand quality.

Our success speaks for itself: STAEDTLER has long since joined the ranks of worldwide leading manufacturers and suppliers of writing and drawing instruments and creative products:
We are the largest manufacturer in Europe for pencils, coloured pencils, erasers and modelling clays, the only European manufacturer of mechanical pencil leads and market leader for industrial clay.
STAEDTLER loves to show ideas and give inspiration. Therefore, let yourself be inspired by our products for colouring, marking, writing and modelling.

## Quality "Made in Germany"

STAEDTLER's roots are in Nuremberg – still the headquarters of the STAEDTLER Group. We proudly stand behind Germany as a business location and the tradition of the Nuremberg pencil-makers. Worldwide, more than 80 % of products manufactured by STAEDTLER are "Made in Germany".

STAEDTLER
STIFTUNG

## Ideas and knowledge are the key to the future!

Since 1997, all shares of the STAEDTLER Group are held by the STAEDTLER Foundation, a public foundation under civil law that supports innovative ideas and knowledge. The purpose of the foundation is to promote scientific research at German universities and support cultural projects.

# Lumocolor® permanent CD / DVD 310

## CD/DVD pen

- Extra-soft tip does not damage sensitive CD/DVD/BD surfaces
- Ink does not penetrate into data storage layer
- Excellent smudge-proof and waterproof qualities on almost all surfaces
- DRY SAFE – can be left uncapped for days without drying up (Standard atmosphere acc. to ISO 554)
- Dries in seconds, therefore ideal for left-handed users
- Superb colour brilliancy, low-odour
- Lightfast colour black
- Xylene and toluene-free ink
- Stand-up STAEDTLER box
- Airplane-safe – automatic pressure equalization prevents pen from leaking on board aircraft
- PP barrel and cap guarantees long service life

Drawing accessories p. 174–176

# Lumocolor® whiteboard park + write set 611 S

## Whiteboard set

- Fixed to a whiteboard, the park + write set makes an ideal parking place for Lumocolor whiteboard markers
- The park + write set keeps Lumocolor whiteboard markers filled and ready for use at all time
- Impossible to overfill as the pen can only draw its own maximum ink content out of the refill station

**Contents:**

– 2 adapter units with double-sided adhesive tape for affixing to whiteboards

– 4 Lumocolor whiteboard markers 351 and refill station 488 51 in red, blue, green and black

MADE IN GERMANY

| | Article-No. | Description | Barcode pcs. | Packing unit | Outer Pack |

## Product presentation solutions

- **The intelligent Point of Sale solution**
  The STAEDTLER VISTA system offers the ideal product presentation solution whatever the size of outlet. Thanks to the flexible assembly options offered by the three basic gondola units, a whole variety of means for presentation are possible from mid-room placement to shop-in-shop.
- **Effective presentation – better sales**
  Different modules can be combined as required to provide an eye-catching, high-class presentation of STAEDTLER products. The clear structure makes it easier for customers to find what they're looking for, resulting in a faster purchase decision and better sales. High-quality lighting installations ensures a stunning presentation of products in the best possible light.

# STAEDTLER generic pictograms

**Ergonomic triangular shape**
for relaxed and easy writing and drawing

**STAEDTLER Box**
the award-winning original serves as a practical storage box and clever pencil holder at the same time

**Unbelievably break-resistant**
through special lead formulation and super-bonded lead

**Sharpening angle of 23°**
for standard-sized blacklead pencils up to 8.2 mm Ø for clear and accurate lines

**Sharpening angle of 30°**
for standard-sized coloured pencils up to 8.2 mm Ø for broad, soft lines

**Sharpening angle of 30°**
for thick blacklead and coloured pencils up to 10.2 mm Ø for broad, soft lines

**Lead diameter**
2 mm, round shape

**Lead diameter**
2 mm, hexagonal shape

**Lead diameter**
4 mm, hexagonal jumbo format

**Lead diameter**
6 mm, hexagonal super jumbo format

**Lead diameter**
2 mm, triangular shape

**Lead diameter**
3 mm, triangular jumbo format

**Lead diameter**
4 mm, triangular jumbo format

**Crayon diameter**
approx. 6 mm

**Crayon diameter**
approx. 8 mm

**Crayon diameter**
approx. 11 mm

**Crayon diameter**
approx. 12 mm

**Crayon diameter**
approx. 14 mm

**Crayon diameter**
approx. 9 mm, triangular shape

**Line width S**

**Line width F**

**Line width M**

**Line width B**

**Bullet tip**
approx. 2 mm

**Bullet tip**
approx. 3 mm

**Chisel tip**

**Variable line width**
of approx. 1–2 mm

**Two tips**
line width fine tip approx. 1.0 mm
line width wide tip approx. 3.0 mm

**Soft writing**
especially soft writing performance

**Conforms to EN 71**

**Universal pen / marker**
for labelling and marking of just about every material

**Recommended for CD / DVD**
extra-soft tip does not damage sensitve CD / DVD surfaces; Ink does not penetrate into data storage layer

**Lightfast**

**Waterproof**

**Weatherproof**

**Dries in seconds**
therefor ideal for left-handed users

STAEDTLER®

**Indelible ink**
conforming ISO 12757-2

**Airplane-safe**
automatic pressure equalization prevents pen from leaking on board aircraft

**OHP – overhead projector**
Universal pen for use on overhead film

**Locked tip**

**DRY SAFE**
can be left uncapped for days without drying up (Test ISO 554)

**8h CAP OFF**
can be left uncapped for 8 hours without drying up (Test ISO 554)

**18 h CAP OFF**
can be left uncapped for 18 hours without drying up (Test ISO 554)

**Twist cap**
for easy opening

**Ventilated cap**
conforming to ISO 11540 and BS 7272-1/2

**Easy to refill**
with refill station

**Easy to refill**
with bottle

**INKJET SAFE**
does not smudge inkjet printouts

**INK·JET SAFE**
does not smudge inkjet printouts and handwritten texts

**For paper, fax and carbon copies**

**Copy proof**
violet and turquoise for documents which are to be copied to avoid thick black lines covering the text

**Washes easily out**
of most textiles

**Water-based ink**
with food colouring dyes

**Specially-designed**
for right-handers

**Specially-designed**
for left-handers

**Twist eraser**

**Pocket-safe**
thanks to retractable lead sleeve

**Cushioned lead**
for high level of break resistance

**Ideal** for use with rulers and templates

**Refillable**

**12-a-go**
easy to refill with „12-a-go" Mars micro carbon 250 mechanical pencil leads

**Push-button mechanism**
innovative push-button mechanism for single-handed use and refilling of individual leads

**ISO colour coding**

**Integrated lead sharpener**
in push-button

**Hand wiper**
for dry-wiping of write-on film and whiteboards that have been written on with Lumocolor correctable or whiteboard markers

**Dry-wipe**
can be dry-wiped without residue from whiteboards and smooth surfaces like glass and porcelain, e. g with Lumocolor wiper 651

**Integrated wiper**
non-permanent dry erase marker for write-on films and other film surfaces such as sheet covers, laminates and school whiteboards with the integrated wiper in end plug

**Stylus tip**
for use on capacitive touchscreen devices such as smartphones and tablets

**Made in Germany**

**PVC free**

**Latex and Phthalate free**

efficient for ecology certified wood pencils
